1.0 Software Products

Product Line	Standalone Price	Networked Price ⁽⁷⁾
ISIS Free⁽¹⁾ (250 nodes/2,500 cells)	Free	N/A
ISIS Professional (1D)⁽²⁾ (1,000 nodes)	€5 750	€6 325
<i>add Unlimited Nodes⁽⁴⁾</i>	€3 776	€4 153
<i>add Enhanced Multi-Run⁽³⁾</i>	€3 195	€3 514
<i>add Water Quality⁽⁶⁾</i>	€870	€957
<i>add Sediment Transport⁽⁶⁾</i>	€870	€957
<i>add ISIS-TUFLOW Link⁽⁵⁾⁽⁶⁾</i>	€1 452	€1 597
<i>add ISIS-TUFLOW-PIPE Link⁽⁵⁾⁽⁶⁾</i>	€1 743	€1 917
<i>add FAST Solver</i>	€4 590	€5 049
<i>add ISIS Mapper⁽¹⁰⁾</i>	Free	Free
<i>add Network Manager</i>	N/A	€1 103
<i>Dongle Exchange</i>	€232	€232
ISIS 2D (ADI Solver) (Unlimited cells)	€5 750	€6 325
<i>add TVD Solver⁽⁷⁾</i>	€1 103	€1 213
<i>add FAST Solver</i>	€4 590	€4 590
<i>add ISIS Mapper⁽¹⁰⁾</i>	Free	Free
<i>add Network Manager</i>	N/A	€1 103
<i>Dongle Exchange</i>	€232	€232
ISIS FAST⁽⁸⁾	€5 750	€6 325
TUFLOW⁽⁹⁾⁽¹⁰⁾ (Unlimited cells)	From ~ €6 100	From ~ €6 100

- (1) ISIS Free (1D and 2D) cannot be used to build or view models greater than the stated 1D node or 2D cell limit. ISIS Free is provided "as is", without warranty. Additionally, ISIS Free cannot be linked to TUFLOW. The ISIS FAST component within ISIS Free is restricted to a DEM grid size of 2,500 cells.
- (2) ISIS Professional allows a maximum of four concurrent instances to be executed on a single computer by a single user
- (3) The Enhanced Multi-Run add-on increases the maximum number of concurrent instances within ISIS Professional from four to eight. Additional multiples of four are available at the same cost (up to sixteen concurrent instances)
- (4) Unlimited nodes denote the maximum number of nodes that the software can use (currently 30,000 1D nodes)
- (5) The ISIS-TUFLOW link and ISIS-TUFLOW-PIPE link can only be purchased from Halcrow and requires a functional version of TUFLOW to work. The ISIS-TUFLOW link and ISIS-TUFLOW-PIPE link are not transferable between licenses
- (6) Limited to the 1D node or 2D cell limit of the licence available (e.g. 1,000 nodes for ISIS Professional or unlimited if the unlimited node upgrade has also been purchased). This is not available in ISIS Free
- (7) There is an additional premium of 10% of the current list price for each ISIS product/add-on which is network enabled
- (8) ISIS FAST can be purchased as a standalone product, unlike the FAST Solver which needs to be assigned to an existing ISIS Professional or ISIS 2D licence
- (9) Halcrow is the sole UK based agent for TUFLOW, developed by BMT WBM. For additional information, please see the TUFLOW price list at www.halcrow.com/tuflow

(10) DEM data extraction (to help build ISIS models) and flood mapping, viewing and 3D animation functionality is provided by ISIS Mapper

(11) The exact EURO price of TUFLOW software is calculated at the date of purchase based on the GBP price list and exchange rates at the time.

Additional modules can only be added to ISIS Professional or ISIS 2D providing the latest version of ISIS is in use.

1.1 Annual Support and Maintenance

Product Line	List Price		Discount Plan ⁽¹⁾	
	Standalone	Network	Standalone	Network
ISIS Free – Limited ⁽²⁾	€431	N/A	N/A	N/A
ISIS Free - Unlimited	€863	N/A	€175	N/A
ISIS Professional	€862.50	€948.75	€400	€450
<i>Unlimited Nodes</i>	€566.40	€622.95	€125	€150
<i>Enhanced Multi-Run</i>	€479.25	€527.10	€0.00	€0.00
<i>Water Quality</i>	€130.50	€143.55	€0.00	€0.00
<i>Sediment Transport</i>	€130.50	€143.55	€0.00	€0.00
<i>ISIS-TUFLOW Link</i>	€217.80	€239.55	€125	€150
<i>ISIS-TUFLOW-PIPE Link</i>	€261.45	€287.55	€150	€175
<i>FAST Solver</i>	€688.50	€757.35	€125	€150
<i>Network Manager</i>	N/A	€165.45	N/A	€165.45
ISIS 2D (ADI)	€862.50	€948.75	€350	€400
<i>TVD Solver</i>	€165.44	€181.95	€125	€150
<i>FAST Solver</i>	€688.50	€757.35	€125	€150
<i>Network Manager</i>	N/A	€165.45	N/A	€165.45
ISIS FAST	€862.50	€948.75	€350	€400
TUFLOW⁽³⁾	From ~ €915	From ~ €915	From ~ €915	From ~ €915

(1) For licences on the discount plan, the base cost is €5,000 plus the above costs for either standalone or network licences.

(2) Support will be provided under the standard ISIS Support and Maintenance Agreement but limited to a total of 8 hours during the one year contract period. Each support query will be considered as a minimum of 15 minutes support, with each subsequent 15 minutes rounded up to the nearest 15 minutes.

(3) The exact EURO price of TUFLOW support and maintenance is calculated at the date of purchase based on the GBP price list and exchange rates at the time

1.2 Discounts

The following discounts apply for ISIS software purchases made at any one time:

Purchase Amount	Band	Purchase Amount	Band
under €11,000	A - 0%	over €44,000	E - 25%
over €11,000	B - 10%	over €55,000	F - 30%
over €22,000	C - 15%	over €66,000	G - 35%
over €33,000	D - 20%	over €88,000	H - 40%

1.3 Leasing

ISIS products can be leased at 15% of list price per month (this includes Support and Maintenance). Software cannot be leased for less than one month. 75% of any continuous lease payments will be deducted from the list price should the user wish to convert the licence to a full licence at the end of a rental period, e.g. If the ISIS Professional list price is €5,750, then a 6 month lease costs $6 \times 0.15 \times €5,750 = €5,175$.

Therefore, 75% of the total lease payment is €3,881.25 which will be deducted from the list price (€5,750) of the software when upgrading to a full licence. If the rental period is extended within one month of expiry, then this is considered as a continuous rental period (up to a maximum of 12 months) when calculating this discount.

Rental dongles should be returned to Halcrow within two weeks of the expiry of the rental period, unless agreed otherwise. If you wish to convert the rental license to a full license, you must notify the ISIS team within one month of the rental expiry date.

Please note that the minimum leasing cost is €550+applicable taxes

1.4 Network licensing

Network licensing allows users on a network to share access to a licence (a licence is required for each concurrent instance of the software). Purchase of the network manager is required to use a network licence. Additionally, a premium of 10% is payable on each product enabled. For example to have a network licence for two copies of ISIS Professional you must pay for one network licence manager plus $2 \times 1.10 \times €5,750$.

All licences assigned to a network licence must comprise of the same product options. The network licence manager allows mobile and remote users to "check out licences" (even if not connected to their network) thus providing maximum flexibility to individuals and organisations.

1.5 Academic pricing

Educational establishments may use ISIS Free, ISIS Professional or ISIS 2D. ISIS Professional and ISIS 2D can be purchased by educational establishments for teaching and research purposes, at significant discounts. The first copy is purchased at list price and all subsequent licences to the same product are free up to a limit of 50 licences.

Support and maintenance for educational establishments is available at list price for the first licence with subsequent copies free on the condition that a single named point of contact with the educational establishment is used for all support queries. Network licensing (with restrictions on checking out) must be used for educational licensing.
