4.0 Academic pricing

Research and educational establishments may use the SANDS suite at significant discounts. The first copy is purchased at list price and all subsequent licences to the same product are free up to a limit of 50 licences.

Support and maintenance for educational establishments is available at list price for the first licence with subsequent copies free on the condition that a single named point of contact with the educational establishment is used for all support queries. Network licensing (with restrictions on checking out) must be used for educational licensing.

5.0 Technical training

Our training courses are run as part of an open programme with scheduled dates at various venues throughout the UK. We also run bespoke, specifically tailored courses that are developed to meet your specific requirements, at a venue and time suited to your exact needs. Our training courses have been specifically developed to:

- Provide cost-effective and well-structured training
- Be run by a knowledgeable and specialist team
- Be flexible and tailored to client specific needs
- Be informal with a focus on interactive, practical based work in small groups.

All of our course presentations are backed up with comprehensive course notes, practical exercises and additional support material
